

## **Laser Light Instructions**

Laser Lights is used to enhance your creative nail art. The possibilities are limitless.

Directions:

1. Precut Laser Light strands to desired length.
2. Using moist wood stick, pick up strand and place into WET polish, gel or acrylic.
3. Repeat steps 1 & 2 until desired design in complete.
4. Cover entire nail with top coat or sealer to seal. (Do not lay strands over nail and cut off excess, doing so will cause lifting.)
